

NANCE AND TRADE

OFFICE OF THE LOUISVILLE DEMOCRAT.
THURSDAY EVENING, December 28, 1894.
The weather to-day presented a strange variety of phases—cloud, rain and snow, with a very small quantity of sunshine, was the order of the day. The holidays continue to keep most branches of trade depressed, and the markets are consequently depressed and inactive. Prices, however, are generally steady, with an advance on some articles, which will be noticed in our quotations. The meeting of Congress was unusually large, but transactions, as reported, were limited.

COTTON—46 bales low middling by E. Matton, Knoxville; 20 bales by Guthrie & Co. at 41c.

WHEAT—46 bids at 82 1/2c.

SALE—200 sacks Turkey's Island, 50 bids to the bushels at 70c.

ATLANTIC AND MISSISSIPPI STEAMSHIP COMPANY.—We invite the attention of the trade, community, merchants and shippers generally to the advertisement of the Atlantic and Mississippi Steamship Company, in another column. It will be seen they have secured some of the best and finest boats in the United States for the Louisiana and New Orleans trade.

—The Mercury left Nashville for this city yesterday, with a fine trip.

COAL.—The Fabaker, Key West, Turcoas and City arrived from Miami yesterday, with 600 tons of coal, at five cents per ton, with close barges, good to ship. Mrs. Mary Ann Harris, b. 1879.

The four market is without special animation and prices are steady. We note sales to-day of 400 bushels of No. 2, and 500 bushels of No. 3, at 10 1/2 and 10 1/4 Cents—Continued in fair request at our quotation. We note sales to-day of 100 sacks low grade at 10 cents; sacks included; 1,700 bushels in the ear at 30.

Oats are without noticeable change in price. There is nothing of importance doing in wheat arrivals are light and prices unchanged.

The cotton market is exhibiting more firmness and we note sales of 15 bales low middling at 15 1/2. Dispatches read on "Change" represented an advance of 1/4.

Standard sheetings are firm at 24, and with sales of 5 bales Great Western at these figures.

Malt is in fair request, with sales at 41 3/4.

Hops are looking up. We hear of sales to-day at 30 1/2 cts.

The beautiful steamer Indiana, Capt. J. Neel, will certainly leave for New Orleans tomorrow at 6 o'clock, from the foot of Fourth street accommodations for passengers, freight and mail. It is the only steamboat anywhere that is unsurpassed by any steamboat anywhere.

—The Memphis and Cincinnati packet M. Burns passed up yesterday on one wheel. The way "crippled."

—The Roanoke passed down over the hills yesterday without stopping. She is on her way to Villa.

—The sloop N. B. Patrick was due from Memphis yesterday. We suppose she will be found at wharf this morning. She will return to Memphis tomorrow evening positively.

There is usually active demand for soap. There are 50 boxes of palm oil today. There is considerable activity in country produce. There is a fair demand, at from 1450/-, according to quality. Potatoes range from 25 250/40, according to quality. We note sales to-day of 100 hhls choice peach blooms at 85/30.

Groceries are without change. We note sale of 20 bags prime Rio coffee at 205/2030/-; sales of hams sugar at 15/40.

Provisions are active and prices are advancing. We note sales to-day of mutton at 120/00/-; there is a fair demand for mutton.

The hog market is more animated, and prices are advancing. We quote sales to-day of 1,000 hogs, at 30/30, and 600 hogs at 31/30 net. The number of hogs slaughtered up to this evening in this city and the number in pens is as follows:

- The *Edna* leaves for Nashville to-morrow in a fine boat.
- The *Dick Longworth* loaded at Cincinnati, N. Y., on account of being unable to get on the bridge at that place, she will rush to the freight on the Indiana, now lying at the city wharf. The Longworth's cargo came down on the city wharf last night.
- The *W. H. Ashley* had fire under her boiler earlier, heating them up. She will be swift. What a mean fleet!
- The *Silver Lake* came in from Pittsburgh with a fine trip of iron, mail and "the."
- The *Baronet*, a new boat built at Pittsburgh, will be here in a day or two, on her way to the Alleghenies.
- The *Pine Grover*, *Armada*, *Nevada*, and the

Leah, Egan & Co.	1,500	200
Messrs. Whiteley & Co.	7,500	1,000
Total	46,200	5,900

Messrs. Hixieley & Co., of Jeffersonville, Indiana, have killed up to this evening 1,600 head, and will kill during the season about 5,000 head.

The season is expected to last some ten days longer, and if as active as at present, the aggregate number of hogs killed around the falls will probably reach 80,000 head.

LOUISVILLE MEAT MARKET.

Financially the market is without change.

The following are the quotations given by our bankers for gold, silver, uncurrent money and

- The clerks of the Fannie Brandt's have thanks for favors.
- The Pyrites has gone to Cincinnati, instead of Madison, to go on the docks for repairs.
- The St. Louis Republican is fond of "hoped our river news. Give us credit, "knight of the quill," or quit it.
- There is some talk of building a bridge over the river at St. Louis. Another nuisance we suppose.
- The boilers and machinery of the Ben Bolivar have arrived at Cairo.
- Hardy Maratta, bookkeeper on the Peoria and New Orleans on the 29th instant.

- The J. G. Blackford goes to New Orleans, loaded at Cincinnati.
- The O. H. Ormsby will be here to-day, \$8.00 bushels of coal.
- The Monitor, building at Evansville, is loose Tuesday and started south. She was wrecked and brought back. She will be exhibited, finished, for the benefit of the poor.
- The Julia went out of the Ohio with a large and a barge load of hay to-day.
- There seems to have been a general rain throughout the country. When the river was there was plenty of do. Now, the river is up - is nothing.
- The Covington and Cincinnati a good time is a nuisance to steamboats. A propeller is

BR. LEWIS.—The past few days have been given to the work of clearing the river of ice, snowing and hawing all that time, and writing the prospectus for the new paper, and the prospectus is in the river, I think. Since six days nights the river upward of eighteen miles has been open, and the water is running at a mark of one, thirty-two feet two and three inches below high-water mark of 1864, and more than a foot below the mark of 1863.

THE WIGGINS' FERRYBOAT, on both sides of the river, has been in the water for some time. I hoped that the company had issued orders for it to go to work and break up the gorge, but so far nothing has been done. I think the company is not the one to speculate in any event that betokens the ruin of the river.
